Transgender Health and Wellness Center

Complete Your Practicum Internship at the Transgender Health and Wellness Center

This opportunity is open to master's level MSW, MFT, and PCC student therapists.

Duties include: providing advocacy, case management, and counseling services to transgender youth, adults, and families

Individual and group clinical supervision is provided to our interns as per the California Board of Behavioral Sciences

Interns will be trained in psychological theories, BPSS, diagnoses, treatment planning, interventions, and documentation

Special emphasis on providing top, quality standards of care as per the World Professional Association for Transgender Health (WPATH)

Students will also be trained in health psychology and medical family therapy
